

MEMBER-CONSUMER-OWNERS PROGRAM FOR EMPOWERMENT

INTRODUCTION

The electric cooperative (EC) provides services to its member-consumers who are at the same time owners of the EC. As such, there is a need to protect their rights and interests as member-consumer-owners (MCOs) and allow them to participate in programs and activities of the EC. To do so, the MCOs have to be organized, educated and ensure their involvement in the EC affairs.

Thus, the National Electrification Administration (NEA) in 2006 organized the Multi-Sectoral Electrification Advisory Council (MSEAC) to strengthen the role of the EC's member-consumers as important players in the rural electrification program. The MSEAC was organized as an initial step towards MCOs empowerment to be active partners of the EC in its operation and decision-making processes. Further, the MSEAC effectively served as information channels to disseminate EC programs and policies and act as an effective catalyst in harnessing member-consumers'

efforts in support of activities contributory to the improvement of operations which later on was enhanced to adopt current realities brought about by the restructuring of the power industry.

To realize NEA's current vision to achieve sustainable rural development through the electrification program, it has initiated a partnership with globally competitive ECs and empowered MCOs. A strongly organized, well informed, and actively engaged MCOs are necessary for the fulfillment of NEA's agenda.

OBJECTIVES

1. To organize, educate and involve all MCOs in the barangay level to improve the EC's operation in the community;
2. To protect the rights and interests of MCOs;
3. To immediately address improvement of EC services in the barangay; and
4. To get the MCOs involvement in the EC's Corporate Social Responsibilities (CSR) programs and other activities.
